

## DSNA AO AIRAC **2513** – 25 DEC 2025

### Summary

The DSNA AO AIRAC Brief informs AOs and CFSPs about significant changes in routings and RAD restrictions within French airspace. This briefing completes, but does not replace the official publication of the AIP FRANCE ENR 3 or RAD. Its primary goal is to provide additional information on major changes affecting flight planning in French airspace. Please bear in mind that this list of changes is not exhaustive and that RAD Increment modifications might occur and impact one or several changes presented in this brief.

The briefing is divided in sections corresponding to the 5 French area control centers: LFBB, LFEE, LFFF, LFMM and LFRR. Each section is updated as needed depending on the severity and scope of changes applicable at each AIRAC cycle.

We are looking to continuously evaluate the usefulness of this briefing, so don't hesitate to give us your feedback using the form at the following QR Code or directly with the link below. <https://forms.cloud.microsoft/e/khQYA1i0Mg>

## LFBB

NIL.

## LFEE

NIL.

## LFFF

NIL.

## LFMM

NIL.

## LFRR

NIL.
